## **FRISBIE STREET CLOSED TO THROUGH TRAFFIC** ***Temporary Closure Looks at Impacts on Residents, Commuters, Businesses***

County traffic officials will temporarily close Frisbie Street to through traffic between Bonita Road and Central Avenue beginning February 23. The six-month closure allows engineers to study impacts on residents, commuters, businesses and existing traffic patterns.

Traffic counts show the volume of vehicles has nearly doubled along the two-block residential road recently. Emergency service providers and other associated services indicate the closure will have no negative effect on response times.

Advance notification signs will be installed February 9 and include the Frisbie Street Hotline number (866) 53-ROADS [(866) 537-6237]. Bonita Road and Central Avenue are alternate routes for commuter and commercial traffic in the area.

"I encourage everyone in the community to contact the County and let us know how the closure of Frisbie Street is affecting you," said Supervisor Greg Cox who has been working with residents and businesses on the project.

County Supervisors will consider permanent closure later in the year if no significant impacts are found during the study.
